

Automotive Design Workshop

A hands-on experience on the development of automotive design projects

Theory:

- History of car design
- Stylistic features of European, Japanese and US Brands
- Relationship between style and function
- From the sketch to the model

Practical work (individual):

- Freehand sketching
- Concept sketching based on specific briefing (car type, dimensions, brand etc)
- Technical drawing (by hand) with a real automotive package (lines, profiles and x, y and z sections)
- Shape and surfaces of the car

Benefits for the participants:

The participants will gain deep insights in the development of automotive projects, improving their skills in shaping, designing, and practical drawing. At the end of the course, every participant will have designed a personal car project, which will be displayed to the public at the prestigious Bernina Gran Turismo Classic Car event (www.bernina-granturismo.com)

Centro Tecnologico del Legno SA

Vial da la Stazion 282, Casella postale 72, CH-7742 Poschiavo
